

PeopleSoft and Fusion Middleware Seminar

Create Business Impact Today

Oracle and Innowave Technology invite you to an exclusive seminar spotlighting PeopleSoft and Fusion Middleware. This is a premier event that unites business and IT to present you with a better foundation for business. During this seminar decision makers and experts will have the opportunity to meet and share experiences, while learning how the Fusion middleware components can enable your PeopleSoft solution to improve Process Management, Compliance & risk management and Business Intelligence.

Oracle Fusion Middleware for PeopleSoft is a pre-packaged application infrastructure foundation certified with PeopleTools and PeopleSoft applications. The Oracle Fusion Middleware for PeopleSoft solution provides the fundamental technologies required for integrating, securing, and sharing information from your PeopleSoft applications across and beyond the enterprise.

During this seminar you will learn

- Fusion middleware products and how they can enhance your business and IT environment
 - Business Intelligence
 - Process Management
 - Identity Management
- How PeopleSoft technology enables seamless integration with FMW
- FMW hot-pluggable capabilities that can enable you to "drop & deploy" various Oracle Fusion Middleware products into existing PeopleSoft environments.
- How to build and manage business processes with PeopleSoft and FMW
